

# RADON TESTING COMPANY

Southern Idaho

## THE COMPANY

This Company was established in 2012 after the Owner’s interaction with an elderly individual who had been scammed by another “Radon Company.” Seeing an opportunity to help people and prevent scams from happening he then launched the business with a goal of providing honest and trusted radon testing and mitigation. The Company has proven brand name recognition and offers free estimates, competitive pricing, excellent customer service and a commitment to healthy, clean living. Customers include existing homeowners, real estate agents, and large commercial and residential complexes.

## THE LOCATION

This home-based operation services all of the Treasure Valley and the Wood River Valley as well as other areas and adjoining states, when requested.

## THE STRENGTHS

The business differentiates itself from others by being nationally certified by the National Radon Proficiency Program (NRPP) along with being fully licensed and insured. Customers feel secure knowing they will be provided the best service and advice from highly trained professionals who understand radon and how it effects the human body. The enterprise also has an A+ rating with the BBB.

## THE REASON FOR SELLING

The Owner has another business and wants to focus his full attention on that Company.

## THE IDEAL BUYER

The ideal buyer would be anybody interested in a home-based business with an excellent reputation and upside potential.

## THE POSSIBILITIES

The Owner represents that there is no shortage of requests for services and often his other company takes precedence over this one. A new full-time owner should be able to grow this Company utilizing the solid platform in place. The Wood River Valley has high radon levels and is a market that has barely been tapped.
