

Custom Metal Fabrication Business

Idaho Falls, Idaho

THE COMPANY

Founded on the idea of making a passive side income, this business has the ability to turn metal into money by incorporating a new plasma cutting machine and all the equipment to easily create nearly anything you can imagine out of metal.

THE LOCATION

The current location is in Idaho Falls in eastern Idaho and has several customers already receiving orders from this seller. It could be kept in the area or easily moved to another area if needed.

THE STRENGTHS

This is a great, low cost of entry business that can easily be run by a family, children, teenagers, or even by yourself if needed. It has high margins and low fixed costs.

THE REASON FOR SELLING

The owner recently started this business after moving from New Mexico where he ran a similar side business making over \$50,000 per year in his spare time. Due to a promotion, his employer is requiring much more time from him and he does not have the time to continue the side business.

THE IDEAL BUYER

The perfect buyer would be someone who is looking for a great money making side business. It could also be someone who has a creative wife who wants to make items for farmers markets and online sales. Also, any family who wants to involve their teenage children in something they can earn money for future expenses like college. All this without the worries that come with public employment.

THE POSSIBILITIES

It's not often you can find a nearly new business with a proven track record at a low cost of entry. This one won't last long. The owner is willing to train a buyer in the intricacies of running the plasma cutter and software, as well as introduce them to his customer base and proven ideas for growing the business. This business comes complete with Website, new plasma cutting machine, tables, miscellaneous other metal fabricating tools, computer, software and a 1,000 square-foot shop lease which can be renewed from year to year. There are four months left on the current lease.
